Building Strong and Resilient Businesses, Families, and Communities
Our mission: To marshal North Carolina’s great people, ideas, and achievements to ensure equitable access to opportunity and success for every child by the end of third grade.

We are driven by a bold vision.

Each North Carolina child has a strong foundation for life-long health, education, and well-being supported by a comprehensive, equitable birth-to-eight ecosystem.
Family Forward NC

Family Forward NC is an innovative initiative to improve children’s health and well-being and keep North Carolina’s businesses competitive.

It is employer-led change to increase access to research-based, family-friendly, industry-appropriate practices—big and small—that increase workplace productivity, recruitment and retention; grow a strong economy; and support children’s healthy development.

Children’s Health and Well-Being

Brains are built, not born.

- The most rapid period of development happens from **birth to eight**.
- End of third grade outcomes **predict academic achievement and career success**.
- Early experiences are **built into a child’s body**, shaping brain architecture. Every experience forms a neural connection at a rate of more than **one million synapses per second**.
Human capital creates economic capital

“The foundation for school, career and life success is largely determined through the development of cognitive and character skills beginning in children’s earliest years.”

Nobel Laureate Professor James Heckman

Caregiving is not only about children

- By 2040, North Carolinians 65+ will be 24% of our population
- In the US, 68% of families headed by people 55 and over are burdened by debt
- Three out of four Americans providing care to an adult work at the same time
